the House adjourned.

GENERAL NEWS.

The Board of Aldermen yesterday received an important communication from City Inspector Boole in regard to the fat-boiling establishments in West Thirty-ninth street and vibinity, which he declares not only a nuisance, but actually dangerous to the public health. Mr. Boole also submitted a report in detail from the officers of his department in regard to these nuisances, and called upon the Common Council to pass an ordinance compelling all the fat-boiling establishments to move without the city limits. The Tax Levy was taken up and passed, after a lengthy speech from Mr. Ryer, in regard to the action thereon of the Legischer which he claimed had increased the taxes of this city and county a million and a quarter of dollars, instead of reducing them. The
